

Experienced Economist skilled in blending data analysis and economic research to provide holistic insights. Proficient in developing economic models for trend forecasting and strategic decision-making. Expert in statistical software and adept at communicating findings to diverse stakeholders. Detail-oriented Research Analyst with a proven record of uncovering data patterns and delivering actionable recommendations.

WORK EXPERIENCE

Research Analyst

Knowledge Excel

06/2022 - Present

Delhi (Hybrid)

Achievements/Tasks

- Researched and analyzed extensive secondary datasets to extract meaningful insights. Conducted thorough research on market trends and competitor activities to inform analysis and strategy development.

Enabled strategic decision-making by generating comprehensive reports covering multiple data dimensions. Analyzed and interpreted structured and unstructured macro datasets to identify trends.

Research Analyst

ZIGRAM

12/2021 - 01/2022

Delhi (Remote)

Achievements/Tasks

- Collected, organized, and refined research data to produce representative summaries for presentation purposes. Despite my brief tenure during my master's studies, it provided valuable exposure to corporate work culture.

Subject Matter Expert (INTERNSHIP)

Tutorpoint

05/2021 - 04/2022

Achievements/Tasks

- Conducted thorough data analysis and assessments, presenting findings to management. Established strong relationships with client leads, serving as a trusted advisor and confidant. Produced informative graphs and compiled data to support financial reporting and budget management.

Subject Matter Expert (INTERNSHIP)

HW Saver LLP

05/2021 - 12/2022

Achievements/Tasks

- Consistently delivered assignments with efficiency and accuracy. Compiled and verified data to enhance efficiency and resolve issues. My expertise in economics played a pivotal role in my hiring, although many projects did not materialize, prompting me to seek better opportunities.
