## EXPERIENCE

---

Sep 2023 -  
March 2025

- Software Engineer  
Visionet Systems Pvt Ltd, India  
CHG – Accessibility Tester (UK Project)  
Worked as an accessibility tester for a UK-based healthcare project across both mobile and web platforms. Performed testing to ensure the application met WCAG 2.1 standards. Used tools like NVDA, VoiceOver, axe, and WAVE to check screen reader compatibility and keyboard navigation. Worked with developers and designers to fix issues and improve accessibility for all users.  
  
IDB – Functional and Data Migration Tester (UK Project)  
Involved in functional manual testing for a UK client. Tested different features of the application to make sure they worked as expected. Also worked on data migration testing by comparing data from the old system with the new one using SQL. Logged issues and worked with the team to ensure data was correctly migrated and the system was stable.  
  
Regeneron – Functional and Automation Tester (US-based Project)  
Worked on a healthcare project for a US client, doing both manual and automation testing. Used Playwright to create and run scripts for important user flows. Also did smoke and regression testing manually. Worked closely with developers and joined Agile meetings to help deliver the project on time and with good quality.

Feb 2023 - July  
2023

- Intern Trainee  
Visionet Systems Pvt Ltd, India  
Trainee Engineer – Automation Tester (Mattress Firm Project)  
Worked as a trainee automation tester on a project for a mattress firm. Focused on testing the mobile application to ensure smooth user experience across Android and iOS platforms. Used Appium Inspector to identify elements and write test scripts for automating key user flows like product browsing, cart operations, and checkout process.  
  
Gained hands-on experience in writing and executing test cases, identifying bugs, and working with developers to resolve issues. Also learned about mobile automation frameworks, test execution on real devices and emulators, and reporting test results to the QA lead. This project helped build a strong foundation in mobile automation and software testing practices.

Sep 2022 - Nov  
2022

- Intern  
Gen Ed Technologies, India  
Completed a 3-month Full Stack Development internship focused on

building responsive web pages using HTML, CSS, and JavaScript. Gained hands-on experience in creating interactive user interfaces, handling DOM manipulation, and implementing basic functionalities such as form validation and dynamic content updates. Collaborated with team members on small projects and followed best practices in clean coding and debugging.

## EDUCATION

---

2023

- The Oxford College Of Engineering  
B.E - CSE  
8.65 CGPA

2019

- St.Francis Composite PU College  
PUC  
91.5%

2017

- New Bishop Cotton English High School  
SSLC  
93.28%

## SKILLS

---

- Software Testing - Manual Testing, Accessibility Mobile & Web Testing, UI Testing, Functional Testing, ACCELQ, TOSCA 1&2, Assure DevOps, Confluence, Jira, NVDA, API Testing, Playwright, A11Y, Lighthouse, AXE DEV, TalkBack, ARC Toolkit, JAWS, Color Contrast Analyser, WCAG 2.2, Browser Stack Accessibility Toolkit.
- Software & Cloud Technologies - Python, Javascript, HTML, CSS, SAP.
- Data Engineering & Visualization - SQL, MYSQL, Microsoft PowerBI

## PROJECTS

---

- Courier Database Management System  
Mini project using HTML, CSS, javascript, PHP
- Student Attendance Tracking System - Android App  
Application built using XML, java and Android Studio.
- Computer Graphic Bubble Shooter - mini project  
Gaming application in which a helicopter ,obstacles and borders on the top and bottom of the screen is built.
- IOT based Energy Saving Smart Street Lighting  
Major project built using IR sensor, LED, relay, arduino and code

## LANGUAGES

---

- English - C1(Proficient)

## DECLARATION

---

- I hereby declare that above information is correct to the best of my knowledge and belief,I bear the responsibility for correctness of the above mentioned particulars.
