PROJECTS

Essl Biometric Attendance System Implementation,

Essl biometric attendance system for efficient workforce management. Configured server and biometric devices, web hosting SSL server, overall 01 server and 55 essl uface 302 devices configured,

CCTV CENTRALISED WEB PORTAL,

Hikvision CCTV Complete installation and centralised for more than 2500 camera's and 45 dvr installation and configuration, Remote view and user creation, access policy, and uptime downtime notifications, Power backup, time to time error resolve,

Computer Lab set-up,

The complete computer lab set-up hardware and software, configuration user control, and installation of firewall and file server, monitoring system performance, and maintenance,

ADVANCE SKILLS

Basic knowledge in SAP HANA installation, upgrade, administrator activities refresh, restore, error resolve,

Basic knowledge in Microsoft Azure, Amazon AWS, Google cloud,

Basic knowledge in SAP client installation and configuration, error troubleshooting,

Basic knowledge in SQL database installation and licensing, error troubleshooting,

VPN Configuration, Site to Site, Ipsec, SSLVPN,

Quick Heal EPS Console Endpoint Security, Patches updating, and Network Monitoring, licensing and error troubleshooting,

Install Active Directory, Configure DC, Add User Accounts, Add Group Accounts, Add Organizational Units, Add Computer Accounts, Add Users

Active Directory, User creations and user policy, File sharing and Access control,

Firewall configuration, Sophos XG, Zyxel, Fortinet, Quick heal EPS console Endpoint,

- Awareness in Promethean boards and classroom Promethean TVs

LANGUAGE

- Tamil, Telugu, kannada and English

Printer installation & Service toner refilling, Hp, Canon, EPSON, TVS Barcode printer, Thermal printers, Scanners ect

Installing Ubuntu OS, creating users, instilling SSH server, Installing FTP / SAMBA server, Network & errors troubleshooting & data backup, Installing printers, scanner's, & troubleshooting, and Asset Documentation,

Outlook configuration, Mail configuration, Webmail, GoDaddy, Zimbra, Gmail, and

Tally ERP9 Upgrading single user to multiple users, Licensing, Renewal and Errors troubleshooting

Networking Routers, Manageable switches, Modem, Routes Access Point, Cisco, D-link , Tp link, Cofe 4gmodem,

Experience with databases, networks (LAN, WAN) and patch management. Knowledge of system security and data backup/recovery.

Knowledge of LAN, cabling, racking, and mounting.
