OBJECTIVE

A teacher of Science with over 5 years of experience delivering high-quality education across primary and secondary levels. Currently seeking a teaching position in International schools, aiming to transfer my expertise gained from teaching across Indian board schools. In July 2024, I completed a 120-hour International Teaching Diploma (ITD) from the Asian College of Teachers, equipping me to excel as a 21st-century educator.

SKILLS

- Creativity & Critical thinking
- Coordinating with others
- Leadership and pupil management
- Effective communication
- Emotional intelligence

- ❖ Science Teacher with 6 years of experience.
- ❖ Taught International and Indian Schools.
- ❖ Excellent subject knowledge.
- ❖ Active involvement in co-curricular activities
- ❖ Teaching qualifications: M Sc B.Ed. and International Teaching Diploma.
- ❖ Trained pupils for dance competitions for inter-school arts' festival such as the CBSE State Youth Festival

EXPERIENCE

LOWER PRIMARY TO HIGHER SECONDARY TEACHER • DE PAUL PUBLIC SCHOOL, KALPETTA • JUNE, 2024 – 2025

- Designed and implemented a progressive curriculum focusing on real-world communication skills, significantly boosting student engagement and confidence in speaking English.
- Successfully raised student proficiency levels by integrating task-based learning, role-play, and interactive activities, resulting in a 20% average improvement in exam scores across all grades.
- Fostered an interactive learning environment through group discussions, debates and presentations, encouraging critical thinking and collaboration.
- Pioneered the use of digital tools and multimedia resources to enhance listening and speaking skills, resulting in more dynamic and modern classroom experience.

LOWER AND UPPER PRIMARY TEACHER OF SCIENCE • ST RITA'S PUBLIC SCHOOL, COCHIN • JUNE 2023 – MARCH, 2024

- Created engaging and interactive science experiments and activities to enhance student involvement and comprehension of key concepts, resulting in a 30% increase.
- Created lesson plans aligned with state and national standards, ensuring students met or exceeded grade-level expectations in scientific literacy and critical thinking.
- Integrated STEM activities, fostering interdisciplinary learning and promoting problem-solving skills among students.
- Implemented a range of formative and summative assessments, including quizzes, projects, and group activities, to provide regular, actionable feedback to students and parents

EDUCATION
