- English

Career Objective

Motivated and detail-oriented library science postgraduate with a dual background in English education. Passionate about fostering learning environments, managing educational resources, and facilitating digital library systems. Seeking a library management position to contribute to academic excellence and knowledge curation.

Internships

- National Institute of Technology (NIT), Tiruchirappalli –
Library Internship (Feb–Mar 2025)

During my internship at NIT Trichy's Central Library, I had practical experience in academic library operations, including as circulation, cataloging, and digital resource management. My proficiency with library software programs like KOHA improved as a result of this exposure, and my comprehension of academic research support services was reinforced.

- Managed collections of print and electronic data for public and private access via reference and borrowing.
- Kept catalog orderly and updated with latest material additions and removals.
- Classified and coded different types of materials according to library policies and organizational standards.
- Collected and analyzed statistics on program data and usage using Excel.

Certificates

- NAMASTE (New Age Mantra for Smart Teacher Education)

Participated in the training program conducted by TCS at SASTRA Deemed to be University, Thanjavur from 02/01/2019 to 09/01/2019. Software: MS Office, DCA-certified

E-learning: ICT in Libraries - SWAYAM Certified

Conference: NGPL-2023 (Next-Gen Public Libraries),

Sep 8–9, 2023
