Startup

- Organic Spices & Food
In 2013 I started a venture related to organic spices, pickles , jams, vinegar and dairy products. It was very successful and some of these products were became very popular. In 2016 I took exit from this startup.
- Soil - Smallholders India Pvt Ltd
An excellent startup for improving the lives of farmers as well as consumers. This Startup gives a great opportunity to enhance the earnings of peasants as well as provides quality products at reasonable price to users. This venture is a complete eco system for primary, secondary and tertiary sector and very useful to tackle almost all kinds of problems.

- **Lunchbox**

An Startup for individuals who are looking for home cooked food items and searching the regional taste with quality. Lunchbox gives an assurance of quality, hygiene, taste and health. For this purpose it is using organic and pure ingredients that are prepared by its partners and on the other hand it is providing employment opportunities to the women who are sitting idle at home or any other individual who is interested for the same.

Social Work

- **Sukhman Foundation**

I have successfully started a non profit organisation which is dedicated to serve the marginalized people. Sukhman Foundation is an organization which works in the area of education, child & women empowerment, environment & sustainable development, agriculture ; etc. Sukhman Foundation believes in the principle of hope, faith, love and pride.

Extra curricular activities

- **Part Time Magician**

During my graduation I had worked as a Magician for part time and organised various shows and awareness campaigns for State Government of Uttar Pradesh as well as for the Central Government of India.

- **Puppet Master**

Associated with Kanchan Madhur Kala Sangam and worked as a part time puppet master and conducted shows for awareness about government schemes.

Projects

Enlightenment Classes - A new dimension of learning

9 Months

- Implemented a child-centered teaching approach, enabling students to take charge of their own learning and skill enhancement.

- This method emphasis on will, skill, knowledge and development.

- Successfully advocated for the adoption of this approach across all classes, as recognized and approved by the management.

Role Of Accountancy & Business Studies in Farming

6 Months

Completed a project on the role of Business Studies and Accountancy in Farming. I tried to describe that how these two subjects can change the fate of Farmers and make their work profitable. Sample size for this project was 300 farmers from different categories. Final Result of this project was as per expectation.
