To secure a challenging position as a Chemistry teacher, leveraging my academic qualifications, teaching experience, and passion for the subject to create an engaging and inspiring learning environment.

### Professional Experience

2022 to present

**Physics & Chemistry Teacher, Deshabandu School & Pottashery Government School**

- Delivering engaging lesson plans, ensuring alignment with educational standards and the specific needs of students.
- Developing instructional materials, including visual aids, lab experiments, and assessments, to facilitate effective learning.
- Conducting interactive lectures, discussions, and demonstrations to introduce new concepts, theories, and practicals.

2014

**Teacher, Government High School Manikkaparamb**

- Prepared physical sciences lessons independently and creatively for eight weeks based on the Kerala SCERT curriculum for grades 8 and 9
- Designed various cross-curriculum activities to enhance connections between school subjects
- Provided first hand experiences of reactions mentioned in Chemistry handbooks for teachers as well as from outside
- Devised various demonstrations from and beyond the curriculum
- Created interactive and picture charts as well as still and working models
- Worked collaboratively with coworkers to design and implement test strategies to improve student learning and performance with chemistry concepts
- Supervised science club activities
- Provided classes on health and physical education

2013

**Physics and Chemistry Teacher, AMHSS Thirukkad**

- Helping students with any queries they have during classes
- Organizing the lab inventory regularly
- Monitoring students work performance

### Skills

Strong Subject Knowledge • Skilled in classroom management and organization
