

BHARGAV M

Visual Art Facilitator

I am a pragmatic person who strongly believe in guiding young minds with values and ethics through the medium of creative arts. What I like most about my teaching job is that it gives me the opportunity to learn and be creative. It helps me mingle with children and be the inspirational and moral support whenever they are in need of it. Creative arts itself is like a guiding light both for a teacher and the student in exploring their ignorance.
