PERSONAL INFO

- Nationality: Indian

PROFESSIONAL SUMMARY

I have excellent technical skills, including HTML5, CSS3, JavaScript, jQuery and Bootstrap. Moreover, I am an excellent communicator, able to quickly build relationships with students, colleagues and parents alike. My specialty lies in developing creative lesson plans that engage students and help them reach their full potential. I am committed to providing my students with the best education possible and strive to make learning an enjoyable experience.

My preference in teaching will be Computers and Mathematics I always love to work on them and also I will upgrade my skills as per the needs of an organization and will always work hard with commitment to yield better results.

EXPERIENCE

Computer skills teacher

2017 - 2022

SSBN college, India, Anantapur

As a Computer Skills Teacher at SSBN College in India from June 2017 to November 2022, I have had the privilege of imparting crucial technological knowledge to students. Through my dynamic teaching style and interactive curriculum, I have helped students develop essential computer skills that will benefit them in their future careers.

- Designed and implemented engaging lessons on various computer programs
- Conducted lab on coding and programming for students
- Collaborated with other teachers to integrate technology into lesson plans
- Assessed student progress and provided individualized support as needed
