OBJECTIVE:

With over 10 years of experience as an Art and Craft Teacher and 8 years in the animation and gaming industry, I bring a strong foundation in artistic education and a deep passion for creativity. My artistic skills, combined with real-world industry experience, allow me to offer students a unique and engaging learning environment.

I am committed to continuous self-improvement in teaching practices and to contributing positively to the success of students, the school, and the community. My goal is to inspire students in the visual arts by fostering creativity, critical thinking, and technical proficiency within an inclusive and supportive classroom. I aim to nurture artistic expression and help each student discover their potential through the power of art.
